Mobile Vehicles

For some communities mobile vehicles are a lifeline. They offer venues for vital public services in remote rural areas and in towns and cities where community facilities are inadequate.

From playbuses and toy libraries to mobile IT rooms and youth centres, our contract covers just about any type of mobile vehicle.

Key features of our service

- Computer aided design so you can plan, visualise and refine layout and livery
- Professional advice covering environmental, health & safety and other legislation
- Construction and fabrication
- Safety, security, electrical and IT installation
- Specialist paint and finishing service
- Competitive pricing and choice of finance options

Plus, don't forget our contract is fully compliant, saving you the need to shop around for 3 quotations or to manage your own tender.
